

To the Honorable Patrick.H.Brennan

Dear sir.

I have lived in Newport my whole life and I am a 4th generation Longshoremen I grew up on the dock in Newport watching my grandfather and my father work very hard loading and unloading cargo.i have been a Longshoreman in Newport for 23 years now.i find it disturbing that a few fishermen(midwater trawlers)can control the port [commission.it](#) is appalling the way they have run off possible very lucrative deals.please push this bill through I think without this the port will go bankrupt and none of my coworkers nor i will never work at home again. there is alot at stake here sir and thank you for your time.

Sincerely Michael E Kasper jr.
