Subject: Gross Receipts Tax
Date: Tuesday, April 23, 2019 8:46:37 AM

Dear Co-Chair Roblan,

I farm. Some years I gross more than a million dollars, with increased minimum wage, labor shortage, increased costs from guestworker program and increased supply costs we sometimes have ZERO profits. How will we pay Gross Receipts Tax.

This is a ridiculous tax. Has no relationship to how much personal income people make.

If you have no farm profit and live on Social Security how much gross receipt tax should you pay???

Sincerely,

Mike McCarthy
