RE: Support HB 3213

Dear Transportation Committee Members,

We are writing in support for HB 3213 and urge you to pass this bill. We are joining with our regional partners to find solutions to help end the high crash rates on McKay Road and Ehlen Road. There is continued anxiety from our residents and business employees about their safety when driving on this road. Our Council believes that HB 3213 is a step in the right direction by allowing counties the ability to establish safety corridors because they have the local knowledge and the resources to make changes. Furthermore, the bill would direct counties to post signs in selected safety corridors to encourage public safety and awareness. Thank you for your attention to this matter. If you have any questions or need more information on this roadway, please reach out to us.
