Re: I SUPPORT: [HCR 35] My wife makes the best brine for smoking Salmon, period!

I really love it when Legislative folks get something right. Good Job! Keep up the momentum!

By the way, the morons who support [HCR 34] must understand China a little better than they have already.

You see, in China, 2019 is the Year of the Pig. Let's be honest. Those that like Salmon also love good BBQ- "Baby Back Ribs" fallen off the bone and all slathered up in sauce. "Moo Shu Pork" with a really well prepared plum sauce is also extremely tasty if the cook doesn't screw it up.

So, there you have it, the morons who supported [HCR 34] didn't consider the "Year of the Pig."

Selling the "International Year of the Salmon" to the Chinese isn't very friendly, now is it?

Fortunately for me, I'm a "switch-hitter." I like them both. Perhaps, I should run for Governor.

VOTE "YES" ON [HCR 35]!

Respectfully submitted,
