Lisa,

With all that is going on with education and appropriating money I felt I need to write to you. I do hope you are the right person.

I come from a long line of educators, two college President, a supertentaint of school and many teachers including my son at Lincoln High in Portland. I also worked in the systems of many school and watched how money was divided up. Yes you do a great job and giving it to the districts but my suggestion might be that it be designated toward something ie, smaller classroom sizes, nurses, not making cuts to teachers. When a lump sum is given to a district they just take it and put it where they want it not where you thought it should go. I do hope this gives you some insight.

Thanking you in advance.
