I oppose 3063 because it takes away religious rights, parental rights, rights, bodily autonomy rights. It takes away informed consent. It is medical coercion. It is not the freedom that American stands for.

If this bill is passed, it will not change anything. It will only shift the perceived problem to a new arena of society. When will this stop? Many, including myself, suspect never. This starts the stripping of our rights in the name of societal good--when in fact, it does no one any good.

Please Oppose House Bill 3063.

These are only a few short reasons. This bill is not about keeping kids safe. I am not opposed to keeping kids safe. I am opposed to stripping rights away from Oregon citizens.

Thank you,
Amanda Vrieze
