To: Senate Committee on Environment and Natural Resources; [and many others].

Re: I DO NOT SUPPORT: [HB 3384 A]

You are compelled by the combined actions of the Legislature to pass **[HB 3384 A]**.

The Legislature as a whole is disingenuous with the electorate as to the basis for **[HB 3384 A]**.

The insane motives to economically develop all of rural and Eastern Oregon is the driving force behind **[HB 3384 A]** to prepare infrastructure that will hasten the destruction of the Resource based economies which includes priceless and irreplaceable farmlands.

The Legislature's maniacal embrace of the High Technology and Service Industries at the expense of the Resource based economies of; agriculture, forest, timber products and fisheries is a matter of record.

The idiocy of pursuing the "affordable housing hoax" to depopulate crowded Oregon cities who attracted too many workers for the High Technology and Service Industries is the impetus of the policy decision.

There also is additional competition for a finite jobs flowing from the seditious policy associated with the "Sanctuary State" where illegal immigration is encouraged and enshrined in Oregon's participation in the "New Confederate States of America."

The High Technology and Service Industries are transient economies that are sensitive to market fluctuations and therefore are unreliable.

The Resource based economies have served Oregon very well, even before Oregon attained statehood; despite the ongoing virulent attacks arising from the bungling mismanagement by the Legislature.

Unfortunately, the Legislature is "No friend" to Oregon and Oregonians.

Repent and change your legislative conduct before Oregon becomes the San Francisco Bay Area del Norté.

Respectfully submitted,
/s/ David S. Wall
