Dear chair Nathanson and Members of the committee,

Please vote No on HB 2456. This is a dangerous anti-land use planning bill. I do not want Oregon to break it's long standing adherence to land use planning. I know things have to change. But please do not build housing outside the urban growth boundary.

I don't know if the land is unfarmable, but clearly the land has been designated outside the Urban Growth Boundary. That is enough to identify that it should remain that way.

I do not support HB 2456 and I hope it does not leave your committee.

sincerely,

Joan Harmsen
