To the Joint Transportation Committee

Please pass this bill, HB 2846 with any necessary amendments, from your committee. The State needs procedures to transfer jurisdiction to local cities or counties of highways which are now serving us as streets.

Several decades ago, Sue Barnett was walking on 82nd Avenue when a car jumped the curb and struck her. She was killed outright. Sue lived as I do, nearby to 82nd where traffic travels at unsafe speeds on poorly kept roads too near to pedestrians and other soft targets.

It will help to have some good procedures to allow these highways to be transferred. I believe that you can do this.

Thank you.
