

Testimony in OPPOSITION to HB 2007, "Relating to engine emissions; declaring an emergency."

Members of House Committee On Rules-

Let me start with this: "Declares emergency, effective on passage." That is ridiculous. I think it's not only an improper use of the clause, but disrespectful to voters- because it would deny voters the use of a tool that might be used to oppose the legislation.

I may provide additional comment at a later date. Thank you.
