

# Support Every Oregon Foster Child.

## Community Programs to Support Children

The below programs meet the highest level of evidentiary standards and are PROVEN to do everything from increase recruitment and retention of foster parents to stabilize kids and maintain family placement to improve graduation rates, reduce foster care re-entry, and lower the instance of teen pregnancy, future houselessness, and incarceration.

## Casework Staff \*benefits every level of Child Welfare

DHS Child Welfare can maximize its ability to serve children and youth by prioritizing the achievement of the caseload model for casework staff through the budget process. The agency can serve all children better and reduce additional costs by delivering service programs and non-service programs through partnership with community programs.
