

Please enter this into testimony.

Senators,

SB 870 flies in the face of the founding of our great Country. The founders specifically created the Electoral College to prevent tyranny by the majority or mob rule. Why do you want to change my vote if I don't agree with the majority? If the Electoral College were to be eliminated (by the way, that would take a Constitutional amendment) then only a few states would, potentially, control all Presidential elections. You may not have liked the election results of 2016 but the system worked as designed. In the event President trump wins the popular vote in 2020, what then? Will you reverse course? I strongly urge you to vote no on this bill.

Respectfully,

Derek M. Becker
Beaverton, OR
