

I am asking you to support SB 870 as the right and fair thing to do. It's disgraceful that a politician can assume the office of the presidency without a majority vote of the people.

The Electoral College, and that really is a wildly uneducated designation for a suppressive practice, was essentially enacted to preserve slavery.

It has resulted in loss of true representation in this country, in this day and age, which is another disgrace.

Please help end the nightmare, and support SB 8760. Thank you.
