

Senate Bill 761

Dear Chair Burdick and Committee members,

My name is Efrosinia Martishev, I am first generation born American. My ancestors migrated here from Russia and Turkey. They are American citizens and their voice matters as much as anyone's. They do not speak or read English well, and do not own computers let alone know how to use one.

Therefore they depend on us to keep them politically informed. Electronic ways have taken over, they already feel they are falling behind, and this bill would further that suppression.

I ask you to please understand the fairness and equality that America is built upon, and how unfair this would be to those electronically challenged&physically disabled, and vote no on SB761.

Thank you.

Efrosinia Martishev 503-951-3532
