

Dear Senate Committee on Rules,

I am writing in regards to SB 761. The bill that would be banning online petitions. Petitions are a way for the people to collaboratively express their beliefs in a timely matter. By taking this away it will show there is little care in the people by those the people have put into Congress. We need to have a way to be heard.

Please explain the purpose and benefits of why this bill was even written?

Please vote NO on SB 761.

Thank you and have a blessed day!

To be so strong that nothing can disturb your peace of mind.
