

Committee Members,

I strongly urge you to leave our voting status as is with the Electoral College. Our founding fathers did this for a reason which is still valid. It is unfair for a few to control the voting of all. If the Electoral College is removed our elections will be controlled by California, New York and a few other very large populated areas. Just as our elections in Oregon are now controlled by Multnomah, Lane, Hood River! The rest of Oregon basically doesn't count as these counties are so heavily populated it wipes out all other votes. The popular vote in Oregon is run by these counties, therefore the rest of the people don't count.

The Electoral College is important in our Democracy, please leave it alone. It will be very unfair for all to be controlled by the few. Everyone's vote counts now as it should!

Thank you,
Sharon K. Tift
