

This submission is in opposition to SB761 which I believe to be a slap in the face to the citizens of Oregon. Our governor is acting more like a dictator and we, the people, have a right to have our voices heard, be it at the ballot box or by online petition and to think the governor would put an emergency clause on this bill to get it through is a travesty.

There is tremendous opposition to the recent passing of the gross receipts tax and I believe this is the governor's attempt to make it impossible for us to organize a repeal of said bill. These kind of tactics should not be allowed and those that represent us should not allow these kind of frivolous bills to even be heard.

This bill just further stifles the ability of the citizens of Oregon to have our voices heard, we are very tired of our government throwing us to the wolves. The emergency clause must come off and the entire bill should be scrapped.

A very concerned citizen,

Leroy Spurlin
