

Good morning Committee,

I oppose SB 761. We should focus on making it more simple for citizens to participate in democracy not hinder it. This would especially impact senior citizens and home bound people. Especially using the emergency clause on this bill when there is no emergent reason to push this thru. Keeping easy access to citizens who want to be part of the legislative process is important to the health of our state.

I urge you to vote no on this ridiculous bill. There are far more crucial items to use our time and resources to solve.

Sincerely,

Christopher Locati  
Hillsboro
