

I am an Oregon voter living in Lebanon Oregon. My husband and I have used these single voter petition sheets many times. He is physically disabled and neither of us frequents places where petition signatures are generally gathered. In fact most petition signatures are gathered at large gathering places, Lebanon's largest gathering places are Walmart and Safeway and I have not been at either place at a time signatures were being gathered in many years. This bill effectively puts those are disabled and those who live in the less populated areas of the state out of the petition process.
