

Hello,

Yet again, the Democrat Supermajority is working their hardest to take away their citizens voices and methods to hold OUR public servants accountable. Politicians seem to forget that they work for us. Yet again they've introduced another crap bill to make it more difficult to participate in local/state government. They're complete hypocrites by using the emergency clause when none exists just like they rail on our president for. Oregon Lawmakers, your employers are watching you and we're getting fed up with constant attacks on our rights. You might find yourself out of a job come next election if you keep working to take away rights and cement government power. I urge a NO vote on this garbage proposal, SB761.

Thank You,
A. Bennett
