**RE: House Rules Committee Hearing on SB870**

---

Please see to it that Oregon become another state that passes National Popular Vote legislation. To think 200+ years after this country was formed that such a system still exists of 'people aren't smart enough to vote for a President; and therefore, we need an electoral college in case they get it wrong' is beyond comprehension. I get it that low population red states see this as their shoe-in mechanism, but it's wrong for this to exist in the 21<sup>st</sup> century.

I ask you to pass this legislation. Please.

Sincerely,  
Candace Pratt
