

Dear Honorable Committee Members,

Thank you for your previous votes to pass the National Popular Vote in Oregon.

It is time that people across this great nation know that their vote will count in the most important election in which we participate. Too many people in "red" and "blue" states sit out the election because they know their vote will not make a difference. Please join the Senate in passing this common-sense solution to one of the important steps to making our presidential elections more representative of the will of the people and more closely resemble a true democracy.

Sincerely,
Lynn Thompson
Portland
