

**HB 2408-A will only affect enterprise zone projects approved after passage of the bill, it is not retroactive. The below chart contains all projects currently receiving EZ property tax abatements. In other words, if HB 2408-A requirements were law at the time of the project approvals, only the projects contained within the blue box below would have triggered prevailing wage. 92% of all approved projects would not require payment of prevailing wage.**
