---

I am writing regarding bill 835. As it is currently written I cannot support this bill. This bill restricts and fails to recognize emerging areas of dentistry. I would support a version of the bill if it included language that recognized the American Board of Dental Specialties. This would give the public access to emerging specialties, such as oral facial pain, oral medicine, and implant dentistry. It would benefit the people of Oregon to know where they can find help for their specific dental issue(s).

Thank you for your time.
