Dear Committee Members,

You are certainly aware that this issue was passed by the legislature and an initiative petition was circulated to force this measure to a vote of the people where it was overturned by a significant majority of the voters. Any measure to provide privileges to illegal aliens is not acceptable. There is nothing in this bill that would increase public safety on our roadways. I urge you to kill this bill as the voice of the people have already been heard. If proposed amendment 6 is not added, I'm sure that the people will petition to have this before the voters again for denial. Save us all time and kill the bill now or at a minimum include amendment 6 to refer the matter to the citizens of this state.

Robert Hart, citizen, resident and voter from
