Dear Committee Members,

Driving is a privilege and not a right. From the support of this bill, it appears that it is apparent that this is directed to provide a privilege to persons that are not legally in this country or refuse to take steps to show that they have a right to be in this country. The privilege to drive should not be a reward for actions that do not meet the laws of this nation. There is discussion in the letters of support that people are afraid of being deported if they try to follow the laws of the land. If you are here legally, there is no basis for this fear. The passage of this bill would only compound the problem of persons here without proper authorization. I urge you to deny this bill.
