Senators and Representatives,

HB 2020A is an outright assault on my rights and my wallet. Nothing in this bill will have a perceptible effect on the climate. The only effect will be on the economy of Oregon; effectively destroying it. This abomination will adversely affect low income Oregonians the most. They cannot afford to pay .22 to .82 more per gallon of gas or 11% more for natural gas (and that's only in the first year) or more for everything else. You have already increased the cost of everything with the gross receipts bill and now you want more. Enough is enough.

**NO ON HB 2020A**

Respectfully,

**Derek M. Becker**
