Subject: HB2001 bad for the state
Date: Monday, June 10, 2019 1:44:58 PM

Dear Transportation Subcommittee Members, Senator Dembrow and Representative Keny-Guyer,

There are many reasons why HB2001 is a terrible idea, but here is the most important one:

Replacing modestly priced existing housing with much more expensive new housing will harm rather than help lower income people who absolutely need housing they can afford.

We do not live in a "one size fits all" state. Solving the housing crisis will take much more creative thinking than HB2001. Please vote no.

Thank you,

Carol Kast
