

HB 2241 - I STRONGLY OPPOSE

Dear Chair Carla Piluso and members of the committee

HB 2241 allows Chief Justice of Supreme Court to establish reasonable fees to public bodies for access to electronic documents on the Oregon Judicial Case Information Network.

This merely stirs the pot of monies that comes from taxpayers. Unfortunately, charging rural counties and cities that are having difficulty already will affect the quality of justice they are able to provide or prevent them from providing other services.

The court should look elsewhere if the funds are really needed.
