---

I'm writing in opposition to to HB 2352. The \$90.00 fee to waterski on a public water way is crazy. This is just a ploy by the rich homeowners to privatize the river. I support increased education and enforcement, but not at the price of excluding people from a public river. Why are only people towing a skier being charged? every boat in the area adds to congestion, including non-motorized. On our public roads there are congestion areas with increased enforcement and no additional fee is charged to driver there. Please keep our waterways open to all the public.
