NW Energy Coalition
for a clean and affordable energy future

June 11, 2019

Joint Subcommittee on Natural Resources
Oregon State Capitol
900 Court St. NE Salem Oregon 97301

RE: SB 5545 Oregon Department of Energy Budget

Dear Chairs Taylor and Reardon and members of the committee:

On behalf of the NW Energy Coalition, I am writing to support a robust and workable budget for the Oregon Department of Energy.

The NW Energy Coalition is an alliance of about 100 environmental, civic and human service organizations, progressive utilities and businesses in Oregon, Washington, Idaho, Montana and British Columbia. We promote development of renewable energy and energy conservation, consumer protection, low-income energy assistance, and fish and wildlife restoration on the Columbia and Snake rivers.

A reliable, clean and affordable energy system in Oregon is critical to our economy, environment and the health and safety of our citizens. The Department of Energy (ODOE) is the state agency currently mandated to undertake all of the important functions to ensure that the state is planning for and delivering this energy system. It is critical that ODOE have sufficient budget to continue its strategic planning and to help inform and deliver critical information and decisions needed to ensure a well-functioning energy system. While the Public Utility Commission of Oregon (PUC) is essential to the regulation of the investor owned utilities, this is a separate and distinct function from the role that ODOE plays in providing comprehensive statewide services that include the consumer owned utilities not under the PUC jurisdiction and the investor owned utilities as well as other non-utility entities to provide functions and services relative to the energy system as a whole.

ODOE plays important functions in the areas of statewide energy efficiency, including appliance standards and other functions, development of renewable

resources and other emerging technologies and their role in our current and future energy system, as well as tracking environmental impacts, including carbon emissions and reductions. While many of the responsibilities that ODOE tackles are behind the scenes for most people in Oregon, entities that work in the energy field rely on their expertise and actions on a daily basis. It is critical that ODOE maintain a functioning budget to continue this work that benefits all energy consumers – large and small.

Sincerely,

A handwritten signature in black ink, appearing to read "W Gerlitz". The signature is fluid and cursive, with the first letter of the first name being a large, stylized 'W'.

Wendy Gerlitz
