Subject: I OPPOSE HB2001

I oppose HB 2001. This bill will result in demolition of affordable housing to make way for expensive new plexes. Throughout Portland, I doubt anybody would be able to give even one example of a plex that was less money than the home that was demolished. It's common to see plexes listed for upwards of a million dollars. Without mandates for affordability in place, this is a rapid displacement and gentrification policy across the state.

Stop this insanity! This is great bill for developers and their funded politicians and horrible for regular working class Oregonians trying to scrape by. Who are you working for? The common Oregonian or big monied interest groups? Your vote will tell us.
