Dear committee,

I am writing to urge you to do everything in your power to keep HB 2001A from passing. Portland and other communities must be able to maintain local control of land use and planing issues and not have this power usurped by the state. Further I believe that the impact to the livability for all residence of our city will be greatly reduced if the bill passes.

Please work to keep our liberty and local voices in control of local issues,

Doug Cooke
NE Portland resident.
