Oregon does not need HB2001A. Please vote against it.

Comp plans are already required to have a 20 year housing supply of ALL types of housing, including single family residential housing.

Single Family neighborhoods should not be zoned out by a state mandate!

In addition, the unintentional consequences of this bill, like no parking requirements, a reduction of our beautiful tree canopy in many neighborhoods, the creation of UNaffordable housing (that's serious and real), and the big one- the elimination of single family neighborhoods far outweigh the supposed solution to our housing affordability crisis: this is not that solution!

We would also be losing all local control.

Please vote against this.

Catherine Wilson
