

Hello,

I am writing to ask you to support SB 998. As a daily bike commuter, this bill would codify how many bikers already act, which is to safely navigate intersections while maintaining our momentum. Bikes are not cars and this bill provides common sense rules that are appropriate to the mode. I believe that this won't lead to much change from the status quo, but again just codify the reality that already exists.

Thank you,
Rob Hemphill
77 NE Graham
Portland, OR 97212
