

I am writing in absolute support of SB998, the “Idaho Stop” bill that would allow cyclists to treat “Stop” signs as “Yield” signs.

I’ve been a cyclist for decades and a bike commuter for more than ten years. I am also a driver, a traveling sales rep, and an occasional delivery driver. From all three points of view, this bill is an easy win for all road users and should absolutely come up for a vote and receive the support of all Oregon lawmakers.

Please don’t let another year go by before implementing this obvious and easy path to safer streets, improved cycling, and a better Portland.

Thank you for your time.

Alex Graham
