

Hello House Rules Committee,

I am a Portland bike commuter and would like to encourage you to vote yes on Senate Bill 998. I must say I love biking but stopping at an empty intersection before a hill can be quite the knee killer. Of course I am happy to yield for safety reasons. Being able to legally slow but not stop at stop signs would help save me momentum and make being a bike commuter more possible!

Thank you for your consideration.

Lisa Dupont, Portland bike commuter
