

**Support for senate bill 998**

Please vote yes on this bill.

Bikes are safer when we can yield at stop signs. I HIGHLY motivated to make sure the intersection is clear before I proceeded. But coming to a complete stop every time makes biking more dangerous because getting going takes a little time and cross traffic ca. Be going much faster. This is known as the Idaho stop and they have had it for years without any problems. Please support it.

Thanks,

Paul Frazier
