

Hello,

I'm a cyclist in Portland writing to ask for your support of SB 998, the "Idaho stop" bill. Passing this bill would make cycling through neighborhood streets more attractive, decreasing the number of cyclists on busy main roads and reducing the potential for accidents. Additionally, it would make cycling more accessible for less experienced riders. Because this bill is about safety and commonsense, I also fully support the increased fine for blowing through stop signs. Please support Oregon cyclists and support SB 998.

Thanks,  
Carina Louzao
