

To the House Rules Committee,

I am an Oregon cyclist, and I would fully appreciate your support on Senate Bill 998. While safety is always a priority while cycling, the Idaho Stop Bill would allow cyclists to maintain hard-earned momentum while approaching a stop sign with no other traffic around. This would improve overall enjoyment of the sport for all ages, and had been proven a safe measure by decades of success in Idaho. Please make Oregon more bike friendly and support this bill! Then come out and ride with us!

Sincerely,

Maggie Colletti
