Subject: House Bill 3031

Dear Chair Jeff Barker, As a small business owner in Klamath Falls, Or. this bill could have great impact on us, we have only 2 employees in our Retail store and on our Service side we have two. This could cost us greatly and cause a huge pain when having to find employees to replace one of these if they are out on leave for any length of time, especially for up to 32 weeks. Please do not vote for this bill. This bill could and would cause the small business owner to close their doors. Please rethink and not vote for it.
