

Dear Chair Barker,

My wife and I run a CrossFit gym. Our employee coaches work minimal hours per week and have other jobs. The employees of small businesses like ours would not use such paid leave. Paying an increased tax for an unused public service unjustly increases our operating costs. Furthermore CrossFit gyms are currently doing more than any other private or government entity to battle and beat chronic disease in America. A vote that hurts CrossFit gyms is a vote that hurts public health.

Sincerely,

Devin Jones
