### SUMMARY

Includes battery storage in definition of "green energy technology." Defines "total contract price." Permits contracting agency, as alternative to including green energy technology in construction, reconstruction or major renovation of public building, to make expenditure to improve energy use efficiency in public building. Adds requirement to show results of analysis of total solar resource fraction that applies to site on which contracting agency intends to construct green energy technology that uses solar energy for space or water heating or to generate electricity. Permits contracting agency to use green energy for space or water heating or to generate electricity if total solar resource fraction exceeds 75 percent.

Permits contracting agency to enter into agreement with another contracting agency to pool resources or share costs related to including green energy technology or woody biomass energy technology or making expenditure to improve building energy use efficiency in construction, reconstruction or major renovation.

Becomes operative on January 1, 2020.

Takes effect on 91st day following adjournment sine die.
