### SUMMARY

Requires eight percent of electricity sold in this state by each electric company that makes sales to 25,000 or more retail electricity consumers to be generated by small-scale renewable energy facilities or certain biomass facilities.

Increases, to 100 average megawatts of electricity per year, amount of electricity generated by certified low-impact hydroelectric facilities that may be used to comply with renewable portfolio standards.

Establishes, for purposes of public utilities that provide electric power to consumers in this state, additional standards for purchase of energy or energy and capacity from qualifying facilities.

Allows person injured by certain violations by public utility related to purchase and sale of energy or energy and capacity to recover treble damages from public utility.
