EFFECT OF AMENDMENT:

Replaces the measure.

BACKGROUND:

The Sex Offender Treatment Board (SOTB) was established in 2017. The purpose of the SOTB is to provide oversight of and establish standards of practice for all professionals providing sexual abuse specific treatment services in Oregon.

House Bill 2472 A intends to close loopholes that have allowed professionals without the agreed upon expertise and training to provide treatment services to individuals convicted of sexual crimes by ensuring all professionals providing treatment services are required to complete the same training and receive the same oversight.
