

Open Government Impact Statement

80th Oregon Legislative Assembly
2019 Regular Session

Measure: HB 3325

Only impacts on Original or Engrossed
Versions are Considered Official

Prepared by: Cameron D. Miles
Date: 3/28/2019

SUMMARY

Requires public utility to meet certain requirements for processing applications from nonresidential customer-generators to interconnect to electric distribution system net metering facility that has generating capacity of more than 25 kilowatts but less than two megawatts. Requires Public Utility Commission to adopt rules requiring public utilities to equitably apportion costs of engineering, construction or installation of facilities within public right of way that will allow for safe interconnection of multiple net metering facilities.
