

Open Government Impact Statement

80th Oregon Legislative Assembly
2019 Regular Session

Measure: HB 3352

Only impacts on Original or Engrossed
Versions are Considered Official

Prepared by: Cameron D. Miles
Date: 3/28/2019

SUMMARY

Directs Department of Education to prepare and make available statement that discloses potential health risks of wireless network technology. Requires department to adopt by rule guidelines for including in school curricula, assemblies, open houses, meetings between parents and teachers and related settings information concerning hazards of exposure to microwave radiation and radio frequency radiation and how to safely use wireless devices.

Requires department and Oregon Health Authority to conduct study on effects of exposure to microwave radiation and radio frequency radiation, particularly exposure that results from use of wireless network technologies, on development and health of students in schools of this state, to develop recommendations to schools in this state for practices and alternative technologies that would reduce students' exposure to harmful microwave radiation and radio frequency radiation and report results of study and recommendations to interim committee of Legislative Assembly related to education not later than September 15, 2020.

Declares emergency, effective on passage.
