## **NOTICE OF NO REVENUE IMPACT**

The Legislative Revenue Office has reviewed the proposed legislation and determined that it has No Impact on state or local revenues analyzed by this office. The increase in revenue is only fee revenue to the directly affected program and agency.

The Department of Agriculture annually raises this commercial weighing fee by 3% per year. With those successive increases, the established cap has been reached. This bill, in raising the cap 15% would provide, at that rate, another four to five years of annual increases, which would generate fee revenue internal to the Department. However, in the budget analysis, the Legislative Fiscal Office has incorporated these fee increases. Therefore, this statement reports no additional revenue impact.
