(b) Notwithstanding paragraph (a) of this subsection, if a school district receives an apportionment for the second school year of a biennium that is greater than the apportionment for the first school year of the biennium and the increase would affect the portion of moneys the school district is required to use for the purposes described in ORS 327.865, 327.868 and 327.871, as described in paragraph (a) of this subsection, the school district is not required to change the portions that the school district uses for the purposes of ORS 327.865, 327.868 and 327.871 for the second school year of the biennium.

(c) Nothing in this subsection prohibits a school district receiving an apportionment as described in paragraph (a)(A) or (B) of this subsection from using any portion of the apportionment for more purposes than what is described in paragraph (a)(A) or (B) of this subsection.

(3) Notwithstanding the requirements in ORS 327.865, 327.868, 327.871 and 327.889 (3) that apportionments made under ORS 327.859 be used for career and technical education programs in high schools, college-level educational opportunities for students in high schools and dropout-prevention strategies in high schools, a school district may use up to 15 percent of the apportionments the school district receives, after deducting any amounts used for administrative costs under ORS 327.889 for programs, opportunities and strategies for students in eighth grade. The use of apportionments under this subsection must comply with the distribution requirements described in subsection (2) of this section.
