(B) “Development activities” does not include farming, ranching or forestry activities, or activities that would otherwise be considered development activities under subparagraph (A) of this paragraph if the activities are associated with:

(i) Farming, ranching or forestry activities; or

(ii) Activities by a district organized under ORS chapter 545, 547, 552, 553 or 554, including activities that occur outside the district’s boundaries but that are related to the district’s operations.

(b) “Mining and activities associated with mining” includes any activity involving extraction of materials from the ground that is subject to regulation by the State Department of Geology and Mineral Industries, the processing or manufacturing of the materials, mining reclamation activities and voluntary restoration activities associated with a mining operation.

(2) The Department of State Lands shall develop a proposal, including recommendations for legislation to be introduced during the 2020 regular session of the Legislative Assembly, for partial assumption by the department of the authority to administer permits for the discharge of dredge or fill materials under section 404 of the Federal Water Pollution Control Act (P.L. 92-500, as amended).

(3) In developing the proposal, the Department of State Lands shall collaborate with the Department of Justice, the Department of Environmental Quality, the Department of Land Conservation and Development, the State Department of Fish and Wildlife, the State Department of Agriculture, the State Forestry Department, the State Department of Geology and Mineral Industries, the National Marine Fisheries Service, the United States Fish and Wildlife Service, the United States Environmental Protection Agency and representatives of any other state or federal agency as the Department of State Lands determines is necessary for developing the proposal in a manner that will satisfy federal and state legal requirements.

(4) The proposal shall include provisions necessary for the Department of State Lands to assume authority to administer permits for the discharge of dredge or fill materials under section 404 of the Federal Water Pollution Control Act (P.L. 92-500, as amended) only for:

- (a) Development activities within an acknowledged urban growth boundary;
- (b) Mining and activities associated with mining; and

(B) Any other provisions that the department determines are necessary to provide the Legislative Assembly the opportunity, during the 2020 regular session of the Legislative Assembly, to take all actions necessary to allow for the department to formally submit to the United States Environmental Protection Agency a complete application for partial assumption, such that the United States Environmental Protection Agency may have the opportunity to review and consider approval of the application before the convening of the 2021 regular session of the Legislative Assembly.

(b) The recommendations required under paragraph (a) of this subsection must include recommendations on the amendments to statutes and session laws necessary to ensure that, if any of the amendments to ORS 196.800, 196.810, 196.825, 196.850, 196.895, 196.905, 196.990, 390.835, 421.628 and 459.047 by sections 1 to 10, chapter 516, Oregon Laws 2001, or the repeal of section 2, chapter 45, Oregon Laws 1989, by section 13, chapter 516, Oregon Laws 2001, become operative, the operation will not result in permitting or regulatory requirements pursuant to ORS 196.600 to 196.905 on and after the operative date that exceed the permitting or regulatory requirements pursuant to ORS 196.600 to 196.905, as in effect on the effective date of this 2019 Act, for activities for which the Department of State Lands is not directed to propose assumption of authority to administer permits as described in subsection (4) of this section.

(3) No later than December 1 of each year, the Director of the Department of State Lands shall submit to the Legislative Assembly and the State Land Board a detailed report that specifies:
